REMARKS

Amendment F is hereby provided after careful consideration of the Examiner's comments set forth in the Office Action mailed September 3, 2008. Claims 1-7 remain in the application after Amendment F is entered. Reconsideration of the application is respectfully requested in view of the amendments and remarks provided herein.

The Office Action

Claims 1-7 stand rejected under 35 U.S.C. § 102(e) for allegedly being anticipated by U.S. Patent No. 6,814,510 to Sabbaugh et al.

Claim 8 is identified as being directed to allowable subject matter in combination with corresponding base and intermediate claims.

The Art Rejections

Claims 1-7 Patentably Distinguish Over Sabbaugh.

As amended, claim 1 now incorporates all the limitations of claim 8. Claim 8 was identified as being directed to allowable subject matter. Claim 8 previously depended from base claim 1. Accordingly, the Applicant respectfully submits that claim 1 is patentably distinguished from Sabbaugh. Based at least on the foregoing, the Applicant respectfully submits that independent claim 1 and claims dependent thereon (i.e., claims 2-7) are currently in condition for allowance.

Please note that claim 1 was previously amended in USPTO Office Action Responses filed on February 2, 2004 (Amendment A) and July 16, 2004 (Amendment B).

Amendment A

1. (currently amended) A partial print provider that permits a proprietary first print spooler to interface with a commercial second print spooler for further processing of a print job submitted to a network print server.

Amendment B

1. (currently amended) A partial print provider that permits a first print spooler <u>associated with a network print server</u> to interface with a second print spooler <u>associated with the network printer server</u> for further processing of a print job submitted to a <u>the network print server from a network print client</u>.

None of the claims were amended or listed in USPTO Office Action Responses filed on October 30, 2006 (Amendment C) and December 10, 2007 (Amendment D). Claim 8 was added in a USPTO Office Action Response filed on May 22, 2008 (Amendment E) in which none of the other claims were amended. However, the listing of claims in Amendment E incorrectly identified claim 1 as follows:

Amendment E

1. (previously amended) A partial print provider that permits a first print spooler associated with a network print server to interface with a second print spooler associated with the network print server for further processing of a print job submitted to a network print client.

Please note that claim 1 in Amendment E was not consistent with claim 1 of Amendment B. Amendment E should have identified claim 1 as follows:

Corrected Amendment E

1. (previously amended) A partial print provider that permits a first print spooler associated with a network print server to interface with a second print spooler associated with the network print server for further processing of a print job submitted to the network printer server from a network print client.

Claim 1 in this Amendment F is consistent with Amendment B and the corrected version of claim 1 for Amendment E as shown above.

CONCLUSION

For the reasons detailed above, it is submitted all claims remaining in the application (Claims 1-7) are now in condition for allowance. The foregoing comments do not require unnecessary additional search or examination.

Remaining Claims, as delineated below:
